

Thanu Foundation

Post Box No. 7162
E-32, Anna Nagar East, Chennai - 600 102. S. India.

Dear Madam/Sir,

We thank you for your earnest enquiry regarding our correspondence courses on Doctorate in Siddha Medical Sciences.

This brochure along with the Application form, is now in your hand and we are sure you will find it interesting, instructive and educative.

You are well aware that the rapid progress all over the world and the illeffects of Allopathic system of medicine have created a demand for specialized alternate medical personnel in the treatment of numerous diseases which are covered by various reasons. The career opportunities are unlimited for those who qualify for the Siddha Medical Sciences. Their scope is vast as the Doctors qualified in Siddha Medical Sciences have golden opportunities all over the world.

The Doctorate Degree covers the subjects on Siddha Medicine. Thanuology (*Varmam*), Yoga Astrology and Tantric.

The seat of Siddha Medical Sciences is Tamilnadu. We are the pioneers to teach this precious Medical Sciences in the English language which enables the world's people to enjoy the elixir of this ideal Medical Sciences.

The course is prepared for home study, by well qualified faculties who are practical men with specialization in their respective fields.

The Practicals that the students are to receive at the end of the course will create confidence in them to become successful experts in Siddha Medical Sciences. Our Motto is to impart quality coaching to our candidates.

After the completion of the course which is generally spread over 4 years, the students are to choose a subject to write a Thesis and submit to the Academy for valuation. Based on the successful completion of the course and acceptance of the Thesis, the candidates will be conferred with Doctorate in Siddha

Medical Sciences (DSMS).

The question of getting standard medicines for the successful candidates does not arise, as our sister concern, Siddha Maguda Laboratories, Chennai - 600 102, supplies genuine medicines since a decade to the candidates who are life members of it. You can avail this facility.

Kindly complete the enrolment form and return it to us with fee by post.

We shall plan your training and set you firmly on the road to success.

Yours sincerely,

Registrar

Thanu Foundation

Varma Medical Sciences

Varma Medical System is a treasure-house of secret sciences and embodies the results of the ardent pursuit thereof by the ancient Siddhars. It is more or less a divine gift, wrested from the Gods by the devout and indefatigable labours of the good old sages. Nature has yet to divulge many a secret of hers in store. Sciences is but one child of Nature, and it is common to all nations and peoples.

Among the nations of the world that have tried to discover the mysterious constitution and functioning of the human body, the Tamil people of south India were the first to come out with flying colours with the disclosure of the arts of the rejuvenation of the human body and the prolongation of human life and of the proper medicines for the same. The Tamil Siddhars who were the pioneers of the 64 kinds of Kalais or sciences and the first worders of eight great miracles were also the first to know the human body, diseases affecting it, preventive and

curative aspects of diseases, and art of prolonging the life span and also the attainment of Samadhi.

Metals in the human body The human body contains several metals, salts, poisons etc. The Tamil Siddhars prescribed metals to cure chronic diseases. Western scientists now say that gold cures Tuberculosis, and that lead cures Cancer. But lead is a poison and it does harm in their experiments now. Their knowledge of its preparation is imperfect. It must first of all be well purified according to the system of India Siddha Medical Science and then calcined and made lighter than water, bulk for bulk, in the finest powder form. Its test is its floatation on water and the lead oxide obtained through the process of its preparation contains no poison. So it gets assimilated in the body easily and cures cancer, skin diseases etc. Similarly, they used all metals including gold, copper etc, very successfully. lead and copper are serious poisons. Poisonous lead destroys the whole nervous system, disturbs the secretions of the glands, brings on rheumatism, lameness, gout etc, and spoils the whole body. There is a Tamil proverb to the effect that a good preparation of lead makes the body *thangam* or golden and that a bad preparation of brings *bangam* or destruction to the body.

The Siddha preparations of metals were not made at random, but with the all-pervading knowledge of the divine Siddhars, who were half-divine in themselves and who were primed with unlimited divine

knowledge and great spiritual powers to illuminate the past, present and future.

Greatness of the Tamil Varma Medicine

The Varma Medicines are very rare preparations, and they are beyond the reach of the ordinary physicians, being high class secret tonics. The Varma System of medicine is prepared to reveal its many occult powers to its devotees.

A copy of the Project Report will be returned to the student under Registered Post for his record, and the other two copies retained at the Academy for reference.

ACADEMIC YEAR & STUDENTSHIP

At present we teach students by correspondence and we do not have any sessions. A student can begin his course at the time specified by the institute preferably twice in a year. In fact this is one of the greatest advantages of correspondence tuition as a student need not remain idle, waiting for a term to begin. The course comprises of 40 subjects. An average student will complete these subjects in approximately 4 years. Students who are unable to complete the course within 4 years, due to valid reasons, may extend their studentship for a further period of 6 months by paying an extra studentship renewal fee of Rs.100/-.

CHANGE OF ADDRESS:

Lessons, question papers and other communications will be sent to the students to the address given by the students in their Enrolment form. Any change in their address (except temporary change of address) should be intimated to the Registrar of the Academy immediately. They should also intimate the Post Master of their place to have their lessons re-directed.

MANUALS AND COURSE MATERIALS

The Academy will supply all study materials which includes study notes, free of cost. All study materials supplied becomes students properly after the course. Study materials is under constant review and revised edition, and new material may be supplied without previous notice. NB: In enrolling with the Academy, it is understood that the student agrees to accept our advice in all matters connected with his studies and that we reserve the right to alter the curriculum of text-books of the course to meet any changes in official examination syllabi, or if any such alteration is approved by our Advisory Board. The Academy cannot be help responsible for such alterations or any other matters outside its control.

LESSONS

The lessons constitute the real course. Our lessons are designed to speak to the student in exactly the same way as a tutor would do standing by his side. Illustrations or examples needed are included in the lessons.

Our lessons have been prepared by experts who are qualified in every way, practical men who have years of experience of teaching by correspondence and who know how to guide the students away from those pitfalls which can prove so discouraging.

The lessons are constantly revised and brought up-to-date. They come to you written in clear language.

TEST PAPERS

When the student has studied the lesson, he is required to answer a set of Test Questions. These are based on the subject matter of the lesson. The questions are searching and are carefully selected to ensure that any weakness will be revealed. When the student has completed his attempts as the Test questions, he/she posts them to the Academy where they are examined by our tutors.

TUTORIAL SERVICE

We have qualified and experienced tutors. It is the duty of these tutors to examine students answer papers. They point out weaknesses and mistakes. From their extensive experience they are able to anticipate mistakes and show where the student has used an unnecessarily lengthy or tedious method, even though he may have obtained the correct answer to the problem. We have many letters on our files showing how as the course progresses there develops a strong bond of friendship between the tutor and the student, though they may never meet. The tutor's sympathetic and helpful attitude is a major factor in the success of our students.

DOCTORATE

i) The Academy will award to each student on satisfactory completion of our Course, a Doctorate showing the subjects in which he has reached the necessary standard of proficiency.

ii) AWARDS

The BEST-OUT-GOING students will receive the following Awards at the Diploma Awarding function:
